17 YEARS OF HORRIFIC RSD PAIN 75% GONE IN 2 WEEKS. Depression, suicidal tendencies also gone after our \$2200 billion health care system failed.

Have any of the above problems and can't get well? Donna, Jim and Frank will be happy to tell you how they did.

TO THE SKEPTICS

Doesn't the fact that we have 72nd best health at #1 cost indicate there must be a better way? How can all these testimonials from all these local people be disregarded? Are all these people liars? In the time of Galileo, people were imprisoned from having opposing ideas to mainstream thinking. Are we far from that in our present time and thinking? **I CHALLENGE EVERYONE WHO IS SKEPTICAL ABOUT THE RESULTS USING THE WATER CURE TO ASK PEOPLE THEY KNOW WHO HAVE THE WORST HEALTH PROBLEMS HOW MUCH COFFEE, SODA AND/OR ALCOHOL THEY DRINK.**

Almost All these people are dehydrated.
 -Bob Butts

It was medical science's discovery of the miracles of water and salt that made the saline IV the #1 health protocol around the world. This was critical to the water cure success.

Over the years I have had over 50 nerve blocks, intra-spinal epidural catheters, PT, OT, trigger point injections, acupuncture and have run the gamut with medications. All with minimal relief of pain. I was painfully alive... not living. For 2 years I was in bed 20 out of 24 hours daily. Zero energy. I thought of suicide almost daily.

On May 19, 2007, depressed, desperate and riddled with intolerable pain, I went to Cee Kay Auto in Moosic to get information about the water cure. I followed the instructions for the water cure program. Within 2 weeks my pain had decreased by 75%. Depression is GONE! Plus, I lost 18 pounds. My doctor told me to keep doing what I was doing, "I cannot argue with proof," he said. -Donna Riviello

REVIEWS FROM MD'S & MEDICAL JOURNALS

"I was particularly stunned by Dr. Batmanghelidj's lucid description of how lack of water is the primary cause of hypertension, which affects 50 million Americans." **Julian Whitaker, M.D. Health & Healing**

"It is claimed that fish probably have no awareness of the presence of water; this book shows we may have done little better. Mostly we have treated symptoms, and often wrongly at that, but masterpieces come into being to produce paradigm shifts. If we learn this one, we may arrest the course of our patients in their all too rapid going the way of all flesh." **Book Reviews, Journal of Clinical Gastroenterology**

"How like monkey mind to bounce about, tying itself in knots with complex solutions while ignoring the profound significance of the simple! Circumstance helped Dr. Batmanghelidj perceive the elegant significance of one factor we too often overlook: water." **Jule Klotter, Townsend Letter for Doctors**

"After many years of study and practicing medicine, it is both rewarding and refreshing to discover the solution to many degenerative conditions beautifully explained by Dar. Batmanghelidj in 'Your Body's Many Cries for Water.' This type of information fills a void left from traditional education." **Robert Battle, M.D.**

"It is a well written book and easy to understand. I think reading of this book should be made compulsory in all the Elementary, Middle and High Schools. It will prevent lots of illnesses and suffering at almost no additional cost." **Hiten Shah, M.D., San Jacinto Medical Clinic, CA**

"Batmanghelidj leads us through these entities point by point and weaves a magnificent tapestry, if not allopathic medicine's shroud-we can't both be right." **The Biotron Connection**

"Yours is the most elegant description of arthritic pain I've ever read!" **Perry A. Chapdelaine, Sr., M.A. Executive Director, The Arthritis Fund/The Rheumatoid Disease Foundation**

"The fact of the matter is, water is an essential nutrient and MUST be taken seriously, not only in terms of bacterial contamination, mineral content, metal and chemical pollution-but also in terms of balanced hydration, for its impact on all the rest of the physiology of the organism is so great." **Society for Orthomolecular Health- Medicine Newsletter**

SUCCESS STORIES

Marcy Lost 45 lbs!

Texas Realtor Marcy Johnson, 55, hit the internet for diet help, and "discovered" water. "The more I drank the less I ate!" she says. Down 45 pounds, she helped her daughter Jodi, lose big, too!

Jodi lost 40 lbs!

Jodi Rutledge, 32 used to blame an out-of-control appetite for her weight problems. But, after taking a tip from mom Marcy, "I realized I was just thirsty!" says The Woodlands, Texas, video editor, down 40 lbs in five months. "Water leaves you so satisfied, you don't want a snack. And it makes you crave healthier foods, too!"

Bonus! 5 Ways Water Acts Like Medicine

When it comes to water's benefits, losing weight and gaining energy are just the tip of the iceberg. Researchers now believe that ordinary tap water helps reduce the risk of kidney stones, urinary tract and bladder cancer and possibly even colon cancer. There is also evidence, says Fereydoon Batmanghelidj, M.D. author of *Your Body's Many Cries for Water*, that...

1 It prevents the common cold. Moisture in your throat holds the antibodies that fight off viruses. If you're even slightly dehydrated, this natural protection disappears.

2 It controls Migraines. Without plenty of water you are more likely to have an attack.

3 It helps lower "bad" cholesterol. When you're dehydrated, your blood becomes thick and acidic and can cause damage to arterial walls. Levels of LDL cholesterol rise in response to coat the arterial walls.

4 It may cure asthma. When you're not getting enough water, your body produces more histamine, which regulates how often your bronchial muscles contract. Drinking water decreases production of histamine.

5 It soothes arthritis pain. Water in the cartilage of your joints acts as a lubricant.

Water also helps cure...

Chronic fatigue

Water keeps blood from thickening, so it can speed through blood vessels, delivering energizing oxygen to all our cells, says Dr. Peeke.

Kidney Stones

Studies prove that water helps dissolve problem calcium in urine, reducing the risk of stone formation.

Arthritis and body aches

Water plumps cartilage and makes muscles less prone to spasms; 8-10 glasses a day has been shown to decrease back and joint pain.

DREW BAUMAN OF OLD FORGE CURED OF TERMINAL CANCER. HE IS STILL CANCER FREE AFTER TEN YEARS.

In a Citizen's Voice news story a local oncologist challenged Bob Butts to produce one patient who used the water cure and had the cancer disappear. Bob noted in a letter to the editor, "thanks to Geisinger Hospital it has been done". This hospital sent Drew Bauman, of Old Forge, home in a terminal state with 2 malignant tumors. He picked up water cure information at Cee Kay Auto and had remarkable improvement in four days. In less than 6 months he was 100% CANCER FREE per his astonished Geisinger doctors - (Drew lived on caffeine, drank little water and used little salt. He was severely dehydrated). I'm certain Geisinger would share these records with the oncologist.

PAUL HARVEY NEWS: ONE MAN'S SOLUTION TO SOARING HEALTH COST: WATER

If you had a cure for cancer, who's going to test it for you? You may be a man or woman with impressive medical credentials. You may have discovered that dandelion greens cure cancer, but for a pharmaceutical company, there is no money in dandelion greens, and for you to conduct tests adequate to satisfy the FDA would cost millions.

Paul Harvey News has allowed itself sometimes to encourage informal public testing of some harmless home remedy- gin-soaked raisins for arthritis or supplemental zinc for macular degeneration. It's not because I have any wish to become a "medicine man," but rather because years of observation have taught me that the merging science of nutrition deserves to be dignified.

I don't know if Dr. Fereydoon Batmanghelidj's idea is worth anything or not. This native of Iran, with a medical education in Great Britain, spent years trying to convince medical associations and medical publications in Britain and the United States that eight to ten glasses of his "medicine" each day would remedy many human ills.

But his prescribed remedy was "water" and there is no money in water.

So he went public. Dr. Batmanghelidj wrote a book called "Your Body's Many Cried for Water".

The author is convinced that "Americans are overmedicated" and that "our nation could reduce medical costs by 60 percent just by recognizing the medicinal value of water".

Maybe this doctor is just another opportunist selling books, but on the chance that he has something, let's listen.

"Chronic and persistently increasing dehydration is the root cause of most all currently encountered major diseases in the human body."

He says that coffee, coke, tea and juice are not satisfactory substitutes.

"The scientific-medical establishment is still fighting diseases with palliatives-with drugs that treat diseases but neither prevent nor cure them."

He is convinced that enough water will prevent fatigue, heartburn and stress, which will lead to major ailments and diseases such as ulcers, hypertension and arthritis.

Dr. Batmanghelidj hopes that Americans will test and prove his promise so that government agencies will be forced to pay attention.

MAN MAKES PHENOMENAL RECOVERY FROM 14 DIFFERENT DISEASES

52 years old, overweight since he was 7. Weighed pretty much over 300 lbs whole adult life. Developed high blood pressure, chest pains, heart palpitations, joint pain, hot flashes, severe indigestion, acid reflux. Started having severe mood swings and depression. Trouble hearing and ringing in the ears. Difficulty breathing, trouble sleeping. Developed strange rash and circulatory problems with voice.

Drank soft drinks and used artificial sweeteners for over 20 years, using 30-40 packets of Splenda every day.

Started the water cure and salt on Tuesday, July 10, 2007. After two weeks on the water cure, went off blood pressure medication and felt wonderful. Skin rashes began to fade. More energy and sleeping better.

Indigestion has diminished to almost non-existent. Drinks at least 150 oz. of water (5 quarts) per day with 1/4 teaspoon of sea salt per quart. It has worked wonders.

His voice has returned to about 95% of previous vocal ability. More energy than he has had in years and hearing had improved.

Discovered that being properly hydrated has removed all cravings for compulsive overeating. He went through a time when he thought his life was over at 52 and now he feels he has a lot more life ahead of him.
