

"IF WE HAD SET OUT TO DESIGN THE WORST HEALTH CARE SYSTEM THAT WE COULD IMAGINE, WE COULDN'T HAVE IMAGINED ONE AS BAD AS THE ONE WE HAVE"

Says Marcia Angell, M.D., former editor-in-chief of the New England Journal of Medicine who urges us to scrap the one we have and start over. Search internet for more info.

The World Health Organization, the most highly respected source of health information in the world, ranks the USA a disgraceful 72nd best health at #1 cost & our leaders want to give it to us at a lower price. That is insane,

shouldn't free be too much?

The solution to most so-called incurable diseases has been known for some time, thanks to F. Batmanghelidj, M.D., who discovered that it is dehydration that is the main cause of our physical, emotional and mental illnesses. He called it the water cure. Local nurses and other employees of our health care system are embracing it because they've seen many local people, including themselves get cured at no cost after the system they work in has failed. What does this say about our intelligence when free outperforms 2200 billion dollars?

More and more medical doctors across the country are sick of our corrupt, profit at any cost medical system, and are speaking out.

It's time for local doctors to join them and the local nurses who are doing something about it. Many local doctors tell me they are afraid of losing their jobs and licenses if they say anything.

And what about the silent local news media and legislators? Big advertisers or campaign contributors got them shut up? **We expect our young soldiers to risk their lives in wars while the powers that be lack the courage to do what's right!**

They know what I've stated here is the truth unless they live under a rock. **Why is WYOU TV the only news source with the courage to seek the truth by interviewing people who got well at no cost?** It's time we all get on the same side and stop the money/power driven insanity that is destroying our lives. **Let us measure excellence in terms of how well we respect and treat each other instead of who has the fattest wallets.**
